PRECISION TURNED COMPONENTS

(All types of copper and copper alloys, SS, MS Etc.)

Brass Hose Nipple and Fittings

CNC Turned components

BS 746 Nuts

CNC Turned components

BS 746 Standard Gas Meter Regulator Parts

Brass Pipe Fittings

Email: info@jnbrass.com, sales@jnbrass.com

PRECISION BRASS HOSE FITTINGS

Brass Hose Fittings parts-1

Brass Hose Fittings parts-2

Brass Hose Fittings parts-3

Brass Hose Fittings parts-4

Brass Hose Fittings parts-5

Brass Hose Fittings parts-6

BRASS CNC AUTOMOTIVE PARTS

Brass Automotive Parts-1

Brass Automotive Parts-2

Brass Automotive Parts-3

Brass Automotive Parts-4

Brass Automotive Parts-5

Brass Automotive Parts-6

BRASS CNC TURNED PARTS

JN Brass Components Turns up the volume on production, with newer and faster machinery, **JN Brass Components** is able to offer faster cycle times resulting in very competitive pricing in volume production. We are already supplying very competitively in fastener and connector industries.

JN Brass Components operates a 24/7 production. Having approved suppliers for second operation processes like plating allow us to deliver the quality part when you need it.

JN Brass Components produces parts 24 hours a day 7 days a week. We invest heavily in our machinery to produce quality turned parts. That investment is matched by our commitment to training our highly skilled work force.

Brass Neutral Link

Brass Electrical components

JN Brass Components (JNBC) is engaged in manufacturing and export of high quality precision metal components and wiring accessories. We manufacture on new generation CNC machines with advanced microprocessor based technology. Today, we can make MS, SS and Copper components besides Brass components from which we started.

JNBC has earned an enviable reputation since its incorporation in 2001 through its hard work and strict quality norms. In this endeavor, new advance and sophisticated CNC machines have been introduced in 2018. A year for specialization and quality commitment has made us able to deliver very reasonable yet quality products with shortest possible lead-time and has earned success in local as well as overseas market.

Our forte is knowledge and experience of complex engineering designs and would appreciate the opportunity to solve your design problems.

To provide variety of engineering components using World-class technologies and get 100% satisfaction in Every area of business from product development to After sales services.

To be recognized as a leading industrialist in Manufacturing world class fittings & assemblies and Supplying across the globe.
